- QUIZ... page 24

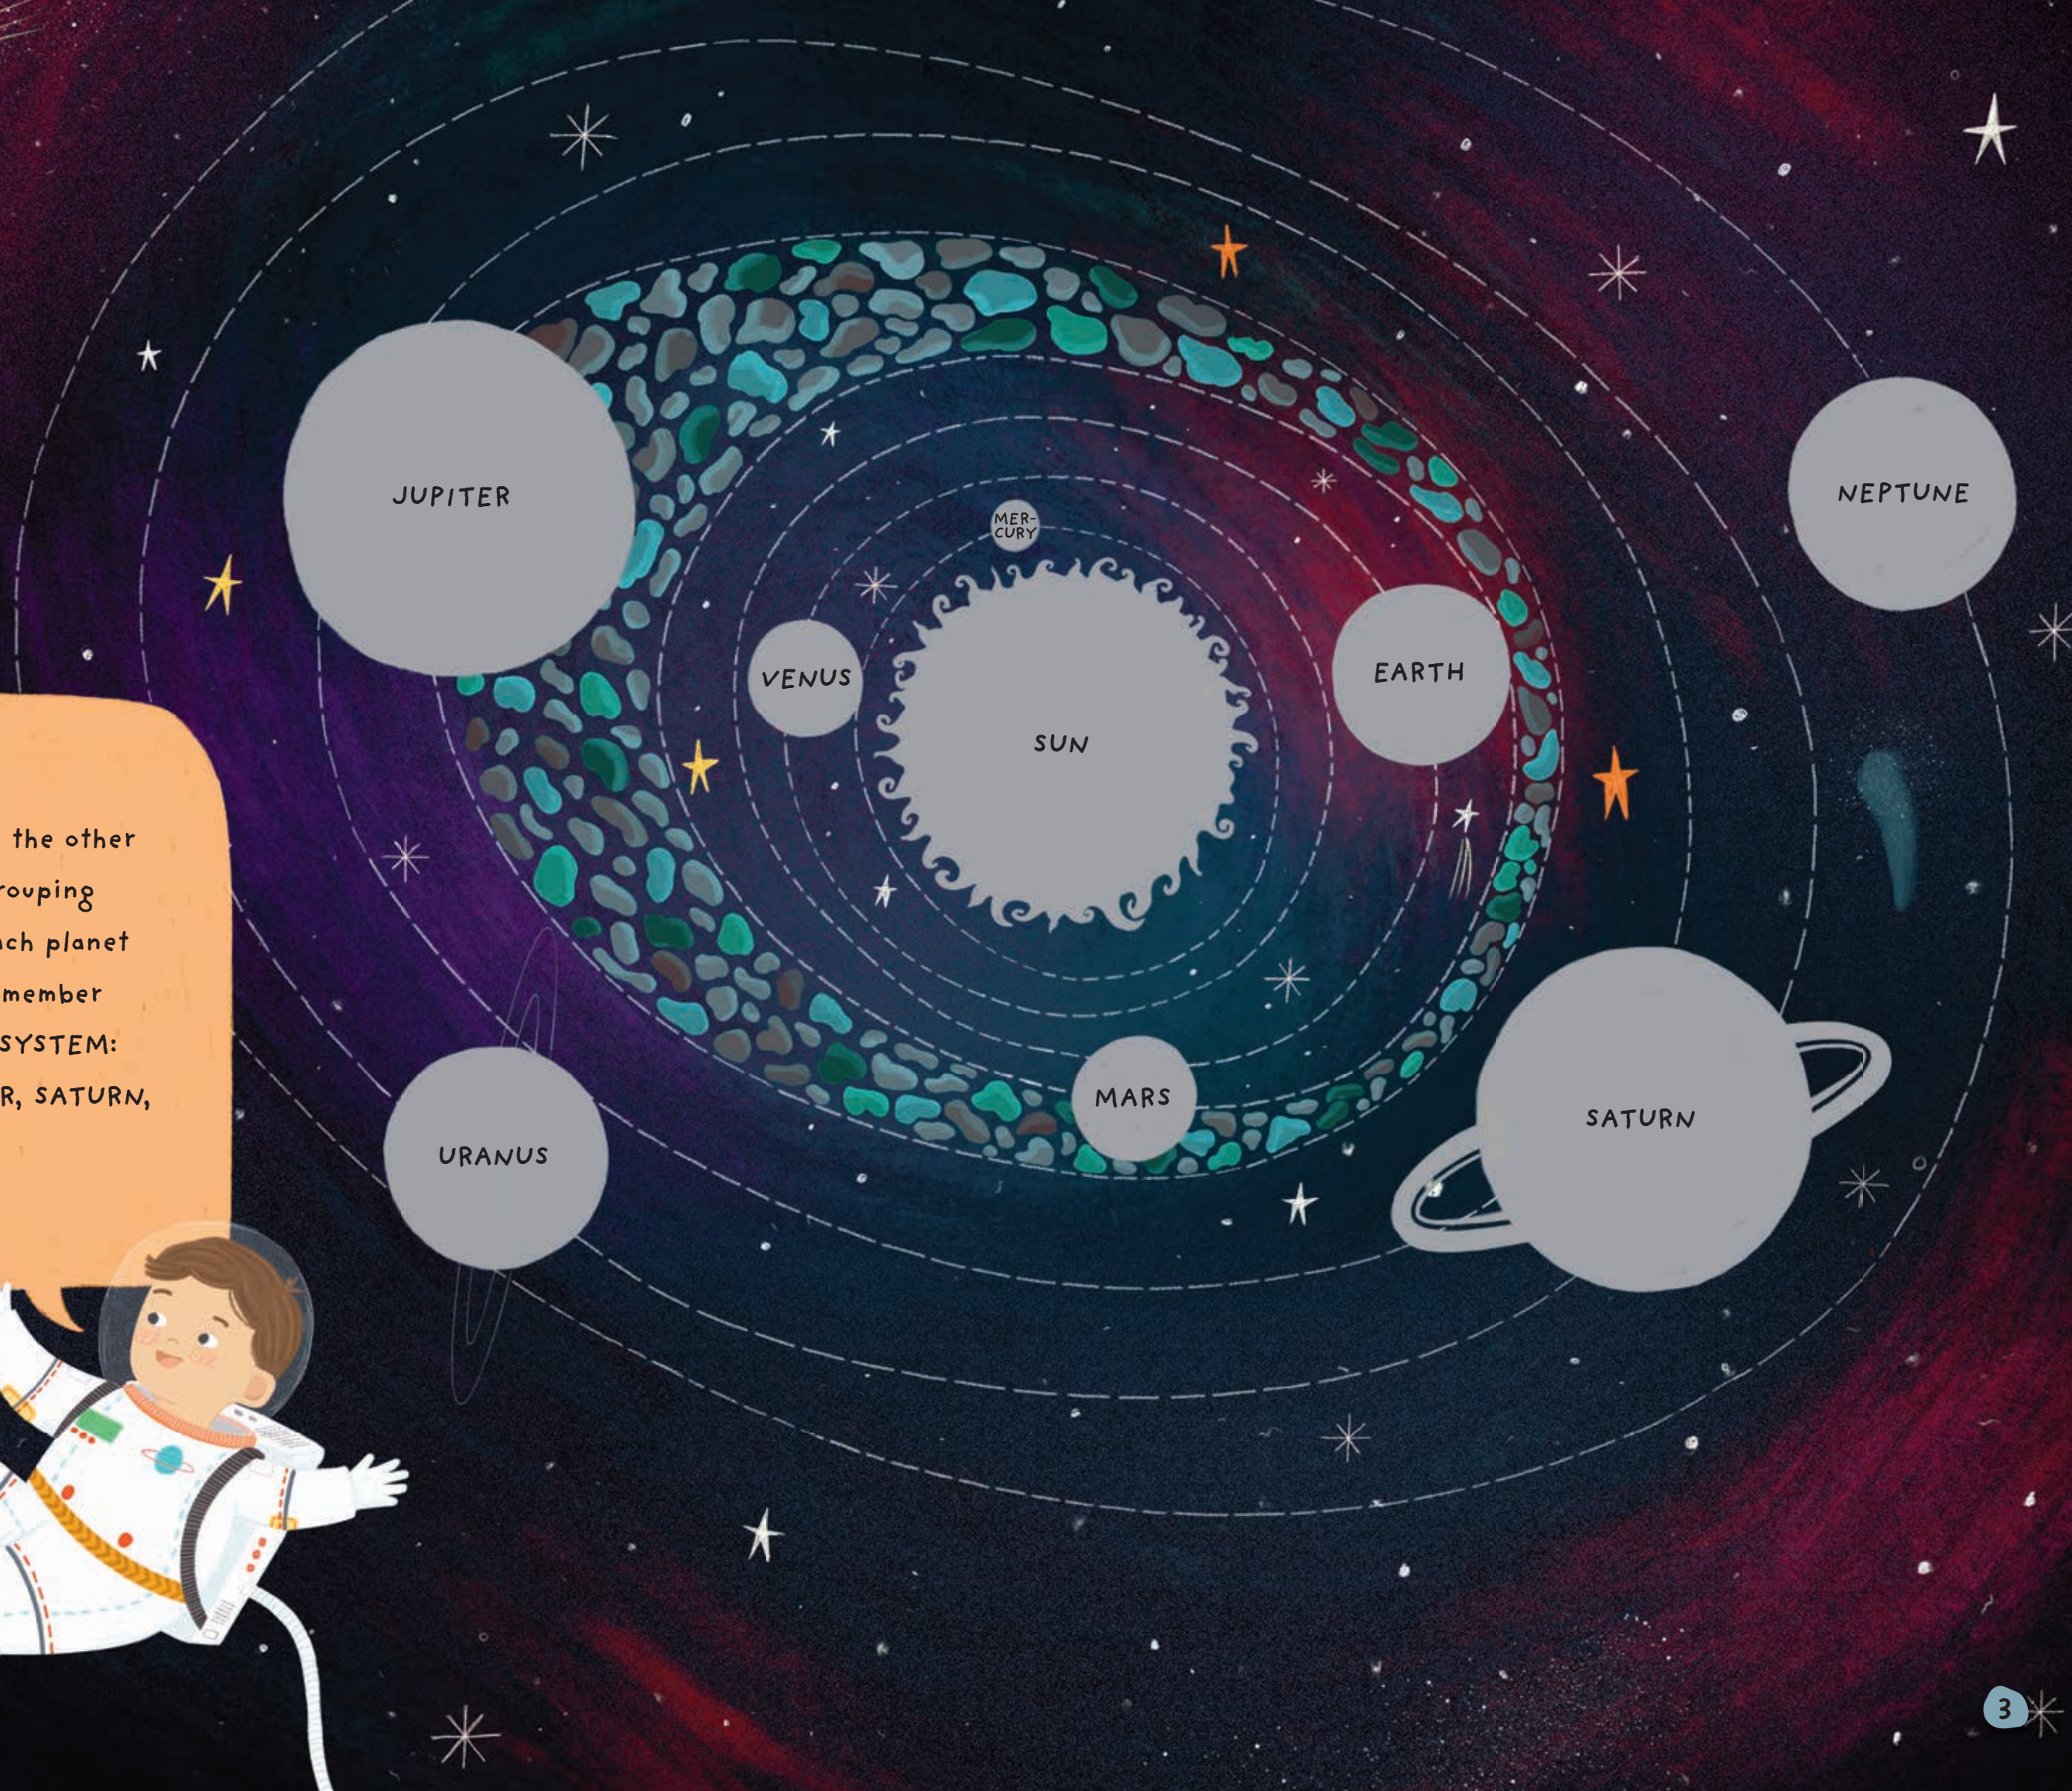

Please write your name here.....
Now everyone knows whom this book belongs to.

Hurry Up... turn the page and
go on an adventure with
the Four Seasons with us.

Our Planet Earth

Our beautiful planet Earth, along with all the other planets, orbits the sun. We call this grouping the solar system. Take the stickers of each planet and put them around the Sun. Try to remember the names of the planets in our SOLAR SYSTEM: MERCURY, VENUS, EARTH, MARS, JUPITER, SATURN, URANUS and NEPTUNE.

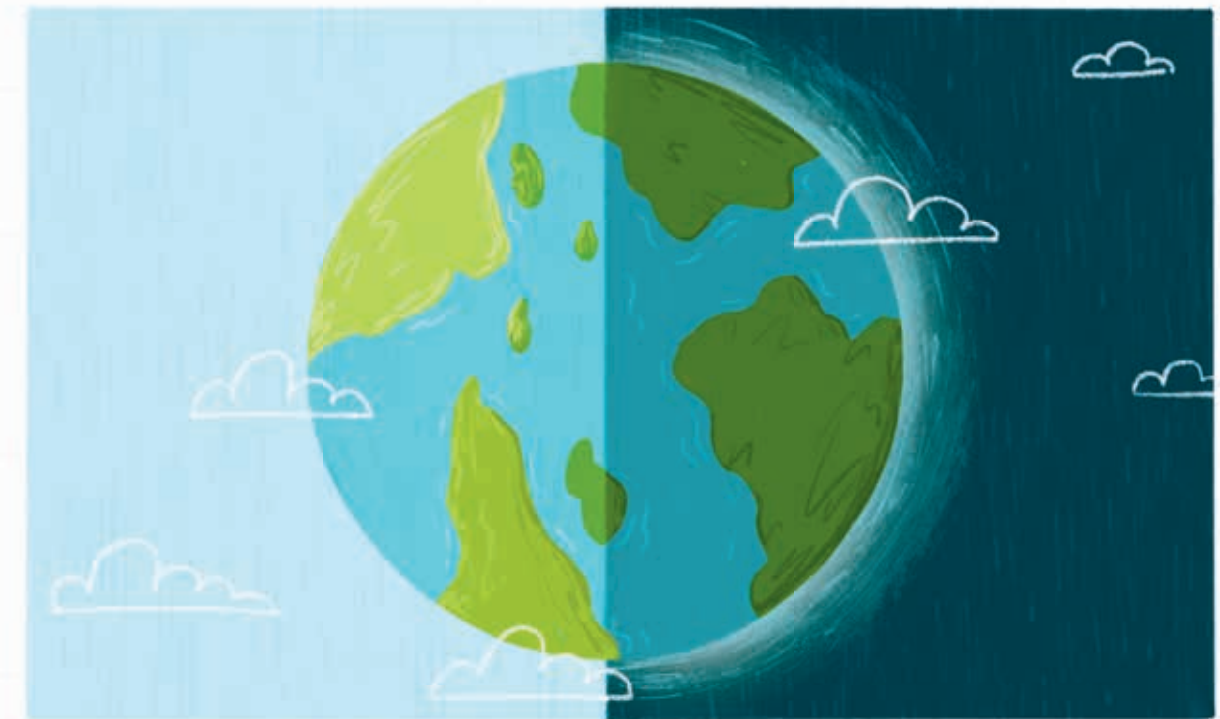

Sun and Earth

The seasons - spring, summer, fall, and winter - alternate depending on how the Earth is tilted and how far it is from the sun. It takes one YEAR for the earth to orbit the sun. Match the stickers by their shapes.

Day and Night

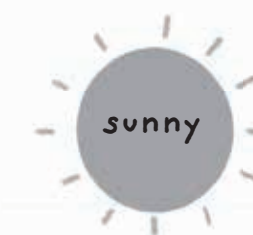

The rotation of the planet on its axis is what causes day and night.

Stick the smiling sun on the day side and the smiling moon on the night side

Changing Weather

Different kinds of weather happens during each season. See what kinds of weather there are.

Match the stickers by their shapes.

Spring

Nature and Animals

Nature is waking up from its winter sleep. Everything is blooming and turning green. Many babies are born. The birds are singing and the sun is warming up.

Spring

People and Children

The children are very excited for spring! They can play outside and take off their heavy winter clothes. People are planting vegetables in the garden bed. Everyone is looking forward to Easter.

Summer

Nature and Animals

It's warm. Some fruits are ripening - raspberries, strawberries, blueberries. All the trees are covered with green leaves. For animals it is a time of well-being and abundance.

Tropical Island

In some parts of the world, the seasons hardly change at all. For example, it always feels like summer in the tropics. Look, our pirates found a secret map that shows exactly where the tropics are.

Tropical Forest

It's an amazing adventure to explore the tropics. In some parts there are beautiful green forests that are home to many interesting animals and plants.

Look how many beautiful and colorful species you can find.

PAGE 2-3

MERCURY

SUN

EARTH

JUPITER

NEPTUNE

SATURN

URANUS

A collection of 14 colorful illustrations of weather and nature elements, designed as cutouts. The elements include:

- Four Earth globes with different features: a strawberry, a snowflake, a yellow flower, and an orange leaf.
- Three suns: one partially behind a cloud, one with a smiling face, and one with a neutral face.
- Two moons: one with a smiling face and one with a neutral face.
- Four clouds: one plain, one with rain, one with snow, and one with rain.

All elements are outlined in a thick black border, making them easy to cut out.

PAGE 6-7

A vibrant, cartoon-style illustration of a garden scene, divided into three main background areas: light blue for the sky, light green for the grass, and brown for the ground. The scene is populated with various animals and plants, each enclosed in a pink outline. In the sky area, there are several bees, two butterflies (one pink, one blue), and a small blue bird. In the grass area, there are tulips, daisies, a fox, a cat, a dog, a snail, a rabbit, a deer, a frog, a dragonfly, a fish, a girl holding a cat, and a boy sitting. In the ground area, there is a squirrel, a mole, a skunk, and a snail. The entire scene is framed by a pink border.

The Sticker Book Four Seasons

How to use this book

Discover and create diverse scenes together with your children.
Colorful scenes with lots of stickers will keep them busy for hours.
The book educates children in a fun way.
Make learning fun!
